March 20, 2020

Hello Barker Families.

We understand that many students have belongings still on campus. At this time we are requesting that any families who have academic materials only that need to be picked up follow this process. Academic materials are those items that will help families complete school work and stay caught up on skills (such as textbooks, review books, or class binders).

The process is as follows: **Please call 716-795-3201 and leave a message.** Clearly and slowly state your full name, each of your children's names, their grade levels, as well as what academic materials you need and the locker number if known. Also, leave your phone number if there are questions. We will do our best to process these as quickly as possible and coordinate a pickup time with families, but please understand this will take time.

At this point, based on the guidance from state government on the number of people allowed to be in the building, we will not be doing pickups of musical instruments, athletic equipment or personal belongings, like clothing at this time. Further guidance will be issued in the near future for those items.

We thank you for your continued patience as the district works through this ever changing situation.

We hope your families are well, and we miss all of our students.

Michael Carter
Principal, Barker CSD
