March 26, 2020

Hello Barker families.

As the community continues to work through unprecedented times, we wanted to update parents on a few items:

1. Our teachers have been in contact with families and students over the past several days. Please feel free to continue to connect with them via email or other means the teacher may have provided. Teachers are using a variety of tools to connect with families, such as Google Classroom, Zoom Web Conferencing, traditional phone calls, email and other means.
2. Many instructors have previously set up Google Classrooms. If your teacher has this, please be checking that website for updates.
3. Some teachers have also been using Zoom web conferencing. Students can make an account at [zoom.us](https://zoom.us)
4. Also, the district's open access web network is accessible from the high school parking lot near the gym entrance. The network name is BarkerGuest. Please be mindful of social distancing requirements if you need to use this. Staying in vehicles is preferable.
4. For those families without internet access, we are currently working on a process to address continuity of learning.

We again wish to thank the community for your flexibility through this process. Teachers are hard at work contacting families and staying in touch with our students. We continue to miss our school being filled with our kids. Thank you and have a good evening.

Michael Carter

Principal, Barker Central School District
