## **COVID-19 Vaccination Clinic Schedule**

The Niagara County Department of Health will be offering FREE COVID-19 vaccine at several sites.

As of November 4, 2021 children ages **5-11** are eligible to receive **Pfizer Vaccine**. **Appointments are REQUIRED** and **ALL children must be accompanied by a parent or guardian**.

COVID-19 booster doses are now recommended for all adults ages 18 years and older at least 6 months after completion of an mRNA primary series (Pfizer-BioNTech or Moderna) or at least 2 months after completion of a one-dose Janssen primary series. **Booster doses for Pfizer, J&J and Moderna** are available at each location. **Pre-registration is strongly recommended.**

### **Second Dose Pfizer Appointments:**

All individuals attending a Niagara County DOH clinic, will be auto-registered for the 2nd dose appointment at the same location and same time as the 1<sup>st</sup> dose unless otherwise directed. Anyone that received a 1<sup>st</sup> dose at a pharmacy or other clinic should use a registration link to register for an appointment ***at least 21 days after the 1<sup>st</sup> dose.***

### **Vaccination of Minors:**

All individuals **age 5 and older** are eligible to receive a **Pfizer** COVID-19 vaccine. NCDOH recommends that *all* minors be accompanied by a parent or guardian. Providers may accept a COVID-19 Immunization Screening and Consent Form completed by the parent or guardian, where the parent or guardian is not available in person or by phone to provide consent to vaccinate. Look for the form under “Vaccination of Minors Ages 5 – 17 Years” here: [www.niagaracounty.com/health/Vaccine](http://www.niagaracounty.com/health/Vaccine) Unaccompanied minors should also bring ID/proof of date of birth (birth certificate, passport, learning permit/driver’s license, benefits card, etc.).

### **Recommendations for Boosters:**

There are now booster recommendations for all three available COVID-19 vaccines in the United States. Eligible individuals may choose which vaccine they receive as a booster dose. Some people may have a preference for the vaccine type that they originally received, and others may prefer to get a different booster. CDC’s recommendations now allow for this type of mix and match dosing for booster shots. For individuals who received a **Pfizer-BioNTech** or **Moderna** COVID-19 vaccine, the following groups are eligible for a booster shot at **6 months** or more after their initial series:

- 65 years and older
- Age 18+ who live in [long-term care settings](#)
- Age 18+ who have [underlying medical conditions](#)
- Age 18+ who work or live in [high-risk settings](#)
- Age 18+ who feel they are at risk

For individuals 18+ who received a **Johnson & Johnson** COVID-19 vaccine, a booster shot is recommended **2 months** after the initial dose.

For more free COVID-19 vaccine availability, visit: <https://www.vaccines.gov/search/>
